NIZAMS COLLECTION

Synonymous with its literary counterpart, the Nizam's collection harkens back to the Islamic Golden Age as Homesmiths proudly unveils its first Indo-Arab collection. A unique blend of Indian yarn is carefully handspun to create a rotund thickness, and is then hand-knotted to imitate the majestic feel of Mahal life centuries ago. Motifs and colors are all modern, however, with vague symmetries and pale colors. For added effect, the yarn used in this collection is purposely faded, giving each piece a worn appearance while being incredibly fresh and new. The Nuit Arabe collection will certainly be the master centerpiece of any room's story.

SPINEL COLLECTION

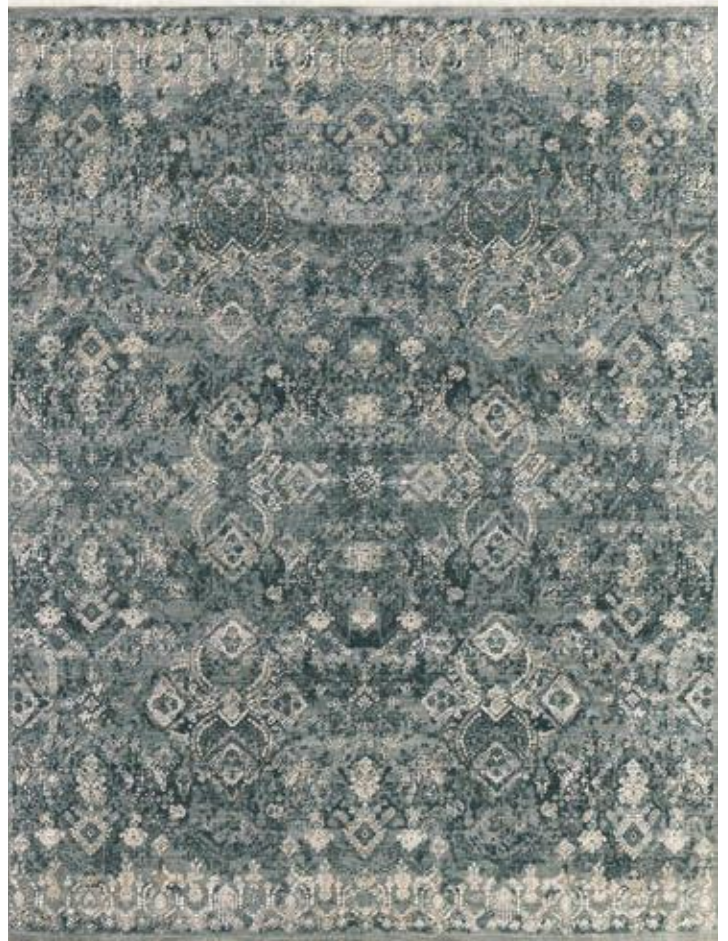

Often used as a metaphor for something fine, beautiful, or possessing a powerful natural aura, a Sapphire is a highly prized study in perfection over time. The development of a single grain of sand into one of nature's most adored fashion accessories is not lost on the in-house design team at Saraswathi, who has caused this collection of rare beauties to evolve. Homesmiths Spinel collection, then, recognizes that wisdom and time inform future beauty in raw New Zealand wool that has been processed by hand, and with hand carved raw silk that adds luster, brilliance, and individual character. Artisans devote months to the creation of just a single rug, adding additional character, warmth, and ensuring that no two rugs are exactly alike. Delicate motifs run through the designs of the Sapphire collection, adding further to its incredible softness and mystique. Sapphire: perfecting the art of floor coverings, naturally.

HAND-TUFTED

Our hand-tufted rug collections are proof that luxury doesn't have to be costly. With a variety of different yarn systems, we have the right rug to fit both color and design inspiration, as well as budget constraints. Because we are the manufacturer, the same meticulous attention to detail and desire for excellence is apparent in each rug that is tufted.

Creating a tufted rug takes less time than its hand-knotted counterpart, and fewer artisans to create a single piece; ergo, tufted rugs tend to be less expensive. However, it requires great skill and a keen eye to handle a tufting gun, and a commitment to using the same high-grade wools and viscose as is found in our hand-knotted collections.
